Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 1,2 and 12-20 are rejected under 35 U.S.C. 102(e) as being anticipated by either Helling et al. (U.S. Patent No. 6,558,887) or Helling et al. (U.S. Patent No. 6,534,254).

Helling et al. ('887) and ('254) each disclose a color photographic material comprising a support having thereon at least one red-sensitive silver halide emulsion layer containing a cyan dye-forming coupler, at least one green-sensitive silver halide emulsion layer containing a magenta dye-forming coupler, at least one blue-sensitive silver halide emulsion layer containing a yellow dye-forming coupler, characterized in that said red-sensitive layer contains a cyan coupler inclusive of the formula of the instant claims (respectively column 1, line 27; column 2, line 5), and an oil former (respectively claim 5; column 25-27), as well as an emulsion having a chloride content of at least 95 mole% (examples in each and respectively column 5, line 4; column 20, line 34).

The applied reference has a common inventor/assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Geraldine V Letscher whose telephone number is 571-272-1334. The examiner can normally be reached on Monday through Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Huff can be reached on 571-272-1385. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
